Solution Strategy

A short summary and explanation of the fundamental decisions and solution strategies, that shape the system's architecture.

Building from Scratch

The key decision of this project is the settlement to program the system from scratch, since there is no suitable, open-source platform which can be used for our purpose. Which systems were examined are written in [Building from Scratch](#).

Programming Language

The programming language we will use throughout this project is the highly acknowledged Java programming language. For in depth view of technology decisions please have a look in [Design Decisions](#).
